The CDFI Fund is an equal opportunity provider.

THE NEW MARKETS TAX CREDIT PROGRAM

The New Markets Tax Credit Program (NMTC Program) helps economically distressed communities attract private investment capital. This federal tax credit helps to fill project financing gaps by enabling investors to make larger investments than would otherwise be possible. Communities benefit from the jobs associated with investments in manufacturing, retail and technology. Communities also benefit from greater access to housing and public facilities such as health, education, and childcare.

Through the NMTC Program, the CDFI Fund allocates tax credit authority to Community Development Entities (CDEs) through a competitive application process. CDEs are financial intermediaries through which investment capital flows from an investor to a qualified business located in a low-income community. CDEs use their authority to offer tax credits to investors in exchange for equity in the CDE. With these capital investments, CDEs can make loans and investments to businesses operating in distressed areas that have better rates and terms and more flexible features than the market. The NMTC Program helps to offset the perceived or real risk of investing in distressed and low-income communities. In exchange for investing in CDEs, investors claim a tax credit worth 39% of their original CDE equity stake, which is claimed over a seven-year period. In addition to receiving a tax benefit, investors have the advantage of entering new, unsaturated markets before their competitors, thereby increasing their chances of success. The NMTC Program enables investors to gain recognition for supporting the revitalization of America's communities.

NMTC PROGRAM HISTORY:

- In the 17 rounds to date, the CDFI Fund has made 1,354 allocation awards totaling \$66 billion in tax credit authority, including \$3 billion in Recovery Act awards and \$1 billion that was specifically set aside for recovery and redevelopment in the wake of Hurricane Katrina.
- \$55.9 billion in New Markets Tax Credits have been invested in low-income communities since the program's inception through FY 2020.

IMPACT OF NMTC PROGRAM:

For every \$1 invested by the federal government, **the NMTC Program generates over \$8** of private investment.

Since its inception, **the NMTC Program has** supported the construction of 63 million square feet of manufacturing space, 98 million square feet of office space, and 69 million square feet of retail space.

The IRS's NMTC Program regulations generally require that at least 85% of QEI proceeds be invested in Qualified Low-Income Community Investments (QLICs). All 100 of the 2020 allocatees indicated that they would invest at least 95% of QEI dollars into QLICs. In real dollars, this means **at least \$500 million** above and beyond what is minimally required by the NMTC Program will be **invested in low-income communities**.

KEY HIGHLIGHTS:

APPLICANTS VS. ALLOCATEES

208 CDEs applied for allocations, requesting a total of approximately \$15.1 billion in allocations. The CDFI Fund made allocation awards totaling \$5 billion, or about 33.1% of the total amount requested by applicants, to 100 CDEs (or 48% of the total applicant pool).

MINORITY- OR NATIVE-OWNED OR CONTROLLED ENTITIES

For the 2020 round, 47% of highly qualified minority- or Native-owned/controlled entity (Minority CDE) applicants received allocations, compared to 56% of the general highly qualified applicant pool. In total, 14 allocatees (or 14%) are Minority CDEs and received allocations totaling \$670 million.

ECONOMICALLY DISTRESSED COMMUNITIES

100 of the allocatees committed to providing at least 75% of their investments in areas characterized by: 1) multiple indicia of distress; 2) significantly greater indicia of distress than required by NMTC Program rules; or 3) high unemployment rates.

RURAL COMMUNITIES¹

16 allocatees met the criteria for “Rural CDE” designation. These 16 Rural CDEs received allocations totaling \$810 million. 55 allocatees (or 55%) will be required to deploy some or all of their investments in non-metropolitan counties; totaling approximately \$967 million, or 20% of the QLICs to be made with this allocation round. This is a baseline level of mandatory investment in rural communities. However, in their applications allocatees estimated total investment in rural areas in excess of \$1 billion.
